WISCONSIN

Meet Wish Kid Olivia

“Ever since I was in first grade, my ultimate dream was to become a fashion designer in “The Big Apple.” My mom would let me stay up past my bedtime to watch episodes of Project Runway, and she bought me design notebooks that I would fill up with my sketches.

In seventh grade, after staying home from school from what I thought was a severe case of the flu, my mom and I went to the emergency room at our local hospital. They suspected it was something more, and I was rushed to Children's Hospital of Wisconsin. The following week, I was waiting in my hospital room with my parents at my bedside when my doctors diagnosed me with leukemia. Since that day in 2014, my treatment plan entailed two and a half years of chemotherapy.

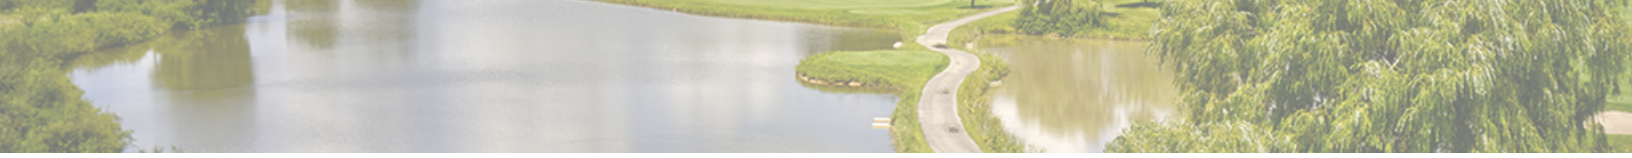

Through my diagnosis my oncologist referred me to Make-A-Wish, and I learned that I qualified to receive my greatest wish come true, which was going to New York Fashion Week with my entire family. My wish helped me in deciding my career path after college, where I ended up attending Fordham University just blocks away from the very fashion shows we attended back in 2015.

Spending a week attending fashion shows, meeting designers, and seeing the runway behind the scenes and first-hand during my wish experience is what inspired me to start looking into a career path relating to fashion. Another added bonus of my wish experience is that I have established life-long connections with the designers I met. Without my wish experience, I would not have the opportunities that I have at my fingertips.

Flash forward to present day – I’m living out my childhood dreams of working in New York City after graduating from Fordham just over a year ago, and now working full time in the PR industry and enjoying all the city has to offer.

After my wish was granted to go to New York Fashion Week, I have had the opportunity to speak at donor dinners, a golf event, a women’s club meeting, a radio-a-thon, and even a fundraiser where I had the chance to meet fashion designer, Nicole Miller. I continue to support and help Make-A-Wish well into adulthood, as my wish has made such a large impact on my life and my mental well-being when I needed it most.” - [Wish Kid Olivia Stern](#)

BENEFITING

Thank you for your wonderful support in helping to make life-changing wishes come true!

**All funds donated will receive a tax-deductible letter from the Make-A-Wish Wisconsin foundation.*

Transform Lives Through The Power Of A Wish

Because of a community of supporters like you, the unknown feels less scary for a child facing a critical illness and their family. A child's fight against a critical illness is not only physically exhausting - it is *traumatic*. A spark of hope can change everything. This hope can only be found in a wish - and you have the power to create it!

When you help grant a wish, you restore hope for a child and improve their mental well-being. A wish provides much needed relief from the trauma and stress caused by a child's critical illness. In fact, 9 out of 10 wish kids reported that the wish experience relived them from traumatic stress. * A wish is a turning point in a child's medical journey that opens the door to exciting possibilities. Research shows children who have a wish granted build the physical and emotional strength they need to fight a critical illness, giving them a higher quality of life and, thus, better health outcomes.

You have the ability to empower local kids battling critical illnesses to reclaim their childhood, and experience transformative joy through the power of a wish! Since the founding of Make-A-Wish® Wisconsin in 1984, more than 7,700 families have experienced the power of a wish across the state. This year, more than 500 children are waiting to have their life-affirming wishes granted. **We need your help!**
